AUTHORISATION CONTROL

A certificate confirms completion of the approved development standard. Only separate written FNF authorisation permits commercial delivery or representation as an authorised FNF coach or leader.

Current Coaching and Brotherhood Access Process

This access process applies after the programme prerequisites and assessment requirements in the checklist.

Stage	Current process
Coaching application	After FNF verifies the official Crucible certificate, upload Coaching payment proof in the tracker. Payhip purchases are matched by the purchase email and receipt reference.
Secure password setup	After FNF verifies enrolment and an active R150 monthly payment, the participant creates his own private password on the secure setup page. FNF never emails or stores a readable password.
One shared credential	The same client-created password opens both the protected Coaching area and the Private Brotherhood page.
Validity	The password continues to work while the Coaching subscription remains active. Access can be suspended after a failed, refunded or expired payment, or reset at the participant's request.

Security note

A PDF upload is automatically checked for file type and basic integrity. The website cannot prove that a certificate is genuine from the file alone. Formal progression unlocks only after Facing New Frontiers verifies and approves the official certificate or payment evidence.

This page records the current process and replaces any earlier submission or access wording in this document.
